## REV. JUDSON ARRICK

**Elected President of State Christian Endeavorers.**

**Madisonville is Full of Delegates and They are Still Arriving—**

**Sunday's Sessions.**

**Madisonville, Ky., May 20.—The Christian Endeavor Convention quiet-hour service this morning was led by Rev. Donald McDonald, D. D. An interesting report was made by the Prison Committee, of which Miss Jennie Glass, of Hopkinsville, is secretary.**

**The Kentucky Endeavor Society was the first to attempt any organized work for the prisoners, but their example has been followed in many other States and many prisoners have been converted. The Frankfort Prison C. E. Society, white, has 150 members and 100 comrades of the quiet hour that are pledged to spend at least fifteen minutes of each day in prayer and Bible reading. Thirty men have joined the church from this society since last January. The colored society has ninety-eight members and twenty-five quiet-hour comrades. The Eddyville Society has fifty-two members and thirty comrades of the quiet hour.**

**The Secretary says there is a kinder spirit among the men and God is working in this prison as never before. The colored society has thirty members. Jail work has been done by endeavorers at Louisville, Lexington, Maysville, Winchester, Danville and many other places.**

**Officers for the ensuing year were elected as follows: President, Rev. A. Judson Arrick, Louisville; Secretary, Miss Emma Curry, Harrodsburg; Treasurer, Wm. S. Waller, Louisville; Superintendent Junior Work, Mrs. F. O. Floyd, Owensboro; Chairman Districting and Extension Committee, Judge J. D. Ellis, Newport; Good Citizenship, Dr. W. W. Ranshaw, Covington; Missionary, Rev. H. D. Smith, Hopkinsville; Secretary, Miss Mattie Plain, Madisonville; Prison Work, Mr. Fred Wallis Chairman; Miss Jennie Glass, Secretary, Hopkinsville; Editor State Paper, Rev. J. J. Dalton, Editor State Paper, Rev. J. J. Dalton, D. D., Henderson.**

## MORE COLORED PEOPLE

**Dissatisfied With Married Life and Seek Legal Separation.**

**Three more divorce suits were filed yesterday for colored people and one Saturday.**

**Sallie Garrett vs. George Garrett is the style of the first case. Cruel treatment is alleged.**

**James Carlos wants to be separated from Mattie Carlos on account of alleged abandonment and lascivious conduct.**

**Etta Smith desires to be divorced from Joe Smith, and states in her petition that she has been whipped, bruised and beaten by the defendant.**

**Carrie Leavell asks to be legally separated from her husband, Lewis Leavell, and alleges failure to provide. She also wants the custody of her two children.**

## FELL FROM A WAGON.

**Accident to One of a Gay Picnic Party.**

**Miss Katie May Cooper, daughter of Mr. A. M. Cooper, was thrown out of a wagon Saturday afternoon and rendered unconscious for nearly an hour. She, in company with a number of her schoolmates, had spent the day picnicking at Campbell's cave. As they were returning home the hind gate of the wagon came loose and fell, throwing the little girl out upon the pike. She was cut on the mouth and the head pretty badly. Dr. Blakey was called and as soon as she was restored to consciousness she was brought to her home on South Main street. Her injuries are not thought to be of a very serious nature.**

## PARIS AGROUND.

**Off The Coast of England With 380 Passengers.**

**Falmouth, England, May 21.—The American Line steamer Paris, Capt. Watkins, from Southampton and Cherbourg for New York, struck on an outlying ridge off The Manacles early this morning at a point half a mile from where the wrecked Atlantic Line steamer Mohegan lies and five miles from Falmouth.**

**The Paris, which sailed from Southampton yesterday, called at Cherbourg and picked up fifty passengers. She left Cherbourg at 6 o'clock last evening. Soon after 1 o'clock this morning, at high tide and in a dense fog, she ran ashore. From the first there was no danger. Lifeboats and tugs were soon literally swarming around the vessel to render assistance. A majority of the passengers, who numbered 380, were brought to Falmouth, where they obtained lodgings for the night.**

## CONFEDERATE GRAVES

**Decorated at the Cemetery Friday.**

**The 19th of May was observed this year again by memorial exercises participated in by the Confederate veterans at the Cemetery.**

**The National Association recently decided to make June 3, the birthday of Jefferson Davis, the Decoration Day hereafter, but the old date was observed this year by the local veterans. As but little notice was given, the crowd was not as large as usual.**

**The usual decorations were placed about the Confederate monument.**

**The exercises were opened by Prof. E. Harrison, of Bethel Female College, and Rev. W. K. Piner was introduced as the orator of the day. He closed his address by reading a poem read on a similar occasion at Austin, Texas.**

**After a prayer at the close the veterans and ladies of the Memorial Association scattered flowers over the graves of the 101 soldiers, whose names are known this year for the first time. The graves of Federal soldiers and also that of young Frank O. Prowse, who died in the service during the Spanish-American war last year, were likewise decorated.**

## MULES CREMATED.

**Large Stock Barn and Contents Burned by an Incendiary.**

**A large barn belonging to Geo. Wallace, a farmer living between Lafayette and Dover, was destroyed by fire at an early hour Friday morning.**

**Four valuable mules were cremated, and a quantity of grain and hay was also burned. Loss \$1,000, partially covered by insurance. This is the second fire of recent date in this district, and it is thought that both were of incendiary origin.**

## COMPLAINT AMONG FARMERS

**Cut Worms and Grasshoppers Getting In Their Work.**

**Many farmers over the county report that the cut worms and grasshoppers are playing havoc with the young corn and tobacco plants. In the Elmo neighborhood several farmers have had to lay off and replant whole fields of corn, and much of the tobacco land will have to be reset.**

**The grasshoppers confine their ravages principally to the tobacco, while the cut worms are proving very destructive to both crops.**

## GOEBEL TO RETURN.

**Will Make Two Speeches in This County June 9.**

**Senator Goebel will make a fight for 16 of the votes of Christian county. He has announced dates for two more speeches in the county. One will be at Pembroke at 2 o'clock June 9, and the other in the Court House at night the same date.**

## UPHELD BY HOBSON.

**Long And Short Haul Cases**

**Again Affirmed by The Court of Appeals.**

**The Railroad Will Now Take The Matter up to The Supreme Court.**

**Frankfort, Ky., May 20.—The judgments of the Marion circuit court in two cases of the L. & N. Railroad company against the commonwealth (the long and short-haul cases) were affirmed by the court of appeals this morning in the opinion delivered by Judge Hobson.**

**The company was indicted in the Marion circuit court for violation of Section 218 of the new constitution,**

**which prohibits common carriers from charging any greater compensation in the aggregate for the trans-**

**portation of passengers or freight, under similar circumstances and conditions, for a shorter than for a longer distance over the same line in the same direction. Upon trial of the case in the lower court the company was fined \$300 in one case**

**and \$350 in the other.**

**This is the second time the case has been before the court of appeals, and the second time the law has been upheld by this body. When passed upon before Judge Joseph Lewis was on the bench, and the appeal this time was practically an appeal to Judge Hobson, who succeeded Lewis on the bench, to reverse the opinion of the court.**

**The opinion of today fully concurs in the former opinion of the court, Judges Burnam and DeRelle dissenting from the majority opinion.**

**The case will now, it is said, be appealed to the United States supreme court on construction of the constitution.**

## SEPARATE COACH LAW.

**Appellate Court Again Upholds Its Constitutionality.**

**Frankfort, Ky., May 20.—The Chesapeake and Ohio Railway Company was indicted in Shelby County and fined \$500 for failing to provide a separate coach or compartment for colored passengers and so lettering the entrance to the coach as to show which compartment is for colored and which for white passengers. The Court of Appeals has affirmed the judgment for the \$500 fine, and again upheld the constitutionality of the separate coach law.**

## WON THE CUP.

**Hopkinsville Boy Captures First Honors at Ann Arbor.**

**Joseph G. Donaldson, a student at Ann Arbor, Michigan, University, has won the first honor in the oratorical contest between the university societies.**

**He and one other speaker debated the following question on the negative side:**

**"If the income tax were constitutional is it best to return to it by a graded scale?"**

**This was the second debate in the contest and Mr. Donaldson's side having won both decisions, he and his colleague were awarded the Jeffersonian cup for oratory.**

**There are 1,200 students in the university and this honor is one sought by all. The young Hopkinsville orator will receive the congratulations of many friends when he returns home.**

## INSOLVENT DEBTOR'S OATH.

**C. L. Slaton Convicted On A Bastyard Charge.**

**C. L. Slaton, who was arrested a week ago on a bastyard warrant, was tried before Judge Canisler Friday. He was ordered to pay \$40 per annum for 18 years for the maintenance of the child. Slaton took the insolvent debtor's oath and went to jail for ten days.**

## SUNDAY NIGHT FIRE.

**Stable Burned Near The Christian Church.**

**At a few minutes before nine o'clock Sunday night fire was discovered in a stable in the rear of the Christian church, in which Wooldridge & Co., kept their coal teams. Boarders at the Hill House across the street discovered the flames and turned in the alarm and ran to the stable and turned out all of the horses and mules, about a dozen head.**

**One of the mules ran out the railroad and met the fast train in the cut near the Clarksville crossing and was killed.**

**The fire company responded so promptly that the flames were soon subdued, the roof being burned off.**

**At about 2 o'clock yesterday morning the smoldering flames again broke out and a second alarm was turned in. The walls of the building are still standing. The loss was few hundred dollars, fully covered by insurance.**

**The origin of the fire is a mystery.**

## DIED YESTERDAY.

**Miss Bettie Clark a Victim of Consumption.**

**Miss Bettie Clark, formerly of St. Louis, but who had recently made her home with her relative, Capt. D. R. Beard, in this city, died at 11:30 o'clock yesterday of consumption, aged 27 years.**

**She was married ten years ago, but in a month or two secured a divorce from her husband and was restored to her maiden name. The funeral will take place to-day and the interment will be at Hopewell Cemetery.**

**She was a member of the Christian church.**

## STRUCK BY LIGHTNING.

**Tobacco Barn and 7,500 Pounds of the Weed Destroyed.**

**The large rehalling tobacco barn of Mrs. S. M. Gray, a few miles from Fairview, was struck by lightning Sunday night during the storm and destroyed, together with about 75,000 pounds of good tobacco. The loss is estimated at about \$6,000.**

**The building was insured for \$400 with J. M. Higgins & Son, of this city, and the tobacco was insured for \$2,000 with the same firm.**

## HOPKINSVILLE WON.

**In The Game of Ball With Cadiz Saturday.**

**The second of a series of games of base ball was played here between the Cadiz team and the local nine Saturday. The game resulted in a victory for the local team by a score of 24 to 21. In the game played between the teams last week at Cadiz, Cadiz won, which leaves the nines game and game. Batters: Hopkinsville, S. Morris and Sam Hayes; Cadiz—Roy Malone and Jas. Williams. Another game will be arranged between the clubs to be played in Cadiz one day this week.**

## DIED OF FEVER.

**Remains Taken to Fairview and Interred Sunday.**

**Mrs. Dora Wilkerson died at her home near Elmo, Saturday morning, after a brief illness, of fever, aged 35 years. She was a highly esteemed Christian lady and had been a member of the Baptist church for several years. The funeral was preached by Rev. J. S. Cheek, Sunday morning and the interment took place near Fairview the same afternoon. Deceased was a niece of Dr. A. J. Kenner, of this city.**

## Chicago Market.

**Chicago, May 22.—(Special)—July wheat opened at 73 1/2 and closed at 75; Sept. wheat opened at 73 1/2 and closed at 74 1/2; Sept. corn opened at 33 1/2 and closed at 34 1/2.**

## DISCUSSES RAPE.

Colored Bishop's Terrible Sermon at Atlanta.

He Who Apologizes For Crime Of Rape an Enemy to His Race.

Atlanta, Ga., May 15.—In a sermon delivered here, Bishop Gaines of the African Methodist Episcopal Church, South, voiced his sentiment against mob law, yet condoning in severest terms the negroes who commit the crime of rape. The Bishop deplores the fact that 95 per cent, of good colored people are disgraced time and time again by an inhuman 5 per cent.

The sermon was delivered in a negro church, yet many white people listened with much interest. Among other things, Bishop Gaines said:

Our country has been exalted from one end to the other by the recent terrible crime committed at Palmetto and the awful punishment that was meted out to the criminal. I want to say that he who apologizes for the crime of rape, or has any sympathy for the human monster who commits this crime, be he black or white, is an enemy to God and a traitor to his race.

In all the catalogue of crime I can imagine no deed more dastardly, no fiend more foul and infernal, than the beast who would outrage virtue and take from a good woman the treasure of her honor, brighter and more priceless than any jewel that ever glittered in the crown of a king.

"I can find no words to express my detestation for such a crime and such a criminal. Perhaps if a man were charged with rape, and I had an arrow from heaven turned on him, so that I knew he was guilty, I would be willing to turn him over to the mob.

"It has been said that the negroes of this country have not spoken out as strongly as they should have done against this outrage and against the monster that committed it. I want to say in my place that 95 per cent of our people stand ready to openly denounce such crimes. We want the world to know that we will not sympathize with such an inhuman monster. We will not rest under the imputation. To do so we would be advertised to the world as a race of rapists and monsters."

Four Years Before the Chicago Convention.

On the 5th of January 1892, Hon. W. J. Stone who is now a candidate for the Democratic nomination for Governor of Kentucky and who at that time was a member of Congress from the first Kentucky district, introduced a bill in Congress providing for the free and unlimited coinage of silver at the ratio of sixteen to one.—Murray Times.

Gold was discovered in California in 1848.

## MAY MARRY YET.

Young St. Louis Lady Now Visiting at Eddyville.

The St. Louis Post-Dispatch of Thursday contains this item of local interest:

"Miss Louise Chenic, of 5365 Cabanne avenue, has gone to Eddyville, Ky., to visit the family of her fiance, Mr. Thomas Leonard.

"Miss Chenic is a cousin of Mr. J. S. Cabanne and Mr. Leonard is a brother of the young lady with whom Mr. Cabanne attempted to elope several weeks ago, but was foiled by the young lady's irate father at Indianapolis. Friends of Mr. Cabanne and Miss Leonard say these circumstances make Miss Chenic's visit to Bunker Leonard's home of great significance. It is hinted that she has gone to intercede for the young couple and to make an effort to remove parental objections from their way.

"Bunker Leonard, it is claimed, opposed the marriage because he thought his daughter was too young, and not because of any objection he has to Mr. Cabanne, and may be persuaded to withdraw all objections to his daughter's marriage."

## THE DRUMMERS

National Convention Called to Order at Louisville.

The tenth annual convention of the National Travelers' Protective Association was called to order at 10 o'clock Tuesday in Louisville. There were present when the gavel fell for 298 delegates, who are accompanied by about 1,500 visitors. The city is decorated and given over to the travelers, who will remain here a week.

The morning session was devoted to the exercises of welcome. The business sessions began Wednesday. The programme for the entertainment of the visitors includes balls, banquets, receptions and excursions through the state, besides minor forms of amusement.

## A CELERY FARM.

A Field of 500 Acres At Santa Ana, Cal.

At Santa Ana, Cal., there is a celery garden of 500 acres. It belongs to a commission house in Kansas City and is on leased ground. The location was peat swamp three years ago, but they drained and proved that it was particularly adapted to the cultivation of celery. Last year they shipped 500 carloads of celery to New York from this one tract alone, the product of 500 acres, and it matures so early in the spring—February and March—and that it makes a very profitable crop.

A barrel of powder weighs 25 pounds.

The first horse railroad was built in 1826.

Pe-ru-na has been making friends on this kind for many years. It uses estuary, which is never located.

Miss R. Eades, of 35 Twenty-eighth St., Detroit, Mich., is one of the many thousand of Pe-ru-na's friends. This is what she says to Dr. Hartman:

"We have used your Pe-ru-na with the most remarkable success and have always been satisfied with Pe-ru-na. My pets would grow weary were I to begin to tell you of the numerous cures Pe-ru-na has effected in our immediate vicinity within the last couple of years."

Dr. Hartman, President of the Surgical Hotel, Columbus, Ohio, will counsel and prescribe for fifty thousand women this year free of charge. Every suffering woman should write to the medical question blank for women, and have Dr. Hartman's book, "Health and Beauty." All druggists sell Pe-ru-na.

### DEMOCRATIC TICKET.

For Railroad Commissioner,  
J. FLETCHER DEMPSEY,  
of Hopkins County.

Dewey is now on his way home by the way of the Suez canal.

Jack Chin and Charlie Bronston have made up and agreed to let by-gones.

Gen. Hardin spoke at Murray yesterday and his friends are claiming Calloway county.

Dawson City, Alaska, has been destroyed by fire, the loss amounting to \$1,000,000.

Sam Jones has closed his meeting in Louisville and the Critic says he added \$2000 to his bank account.

Maj. Josiah Harris, of Paducah, surprised his friends Saturday by marrying Mrs. Josephine Dibble, a Paducah widow.

Another expedition is to start this week to search for those who went in search of Andree last summer.

Mrs. Jas. Wood, of Rockmart, Ga., shot and killed a negro who was trying to get into a window of her room.

The Spanish cruiser Reina Mercedes was towed into Hampton Roads Sunday, making the voyage from Santiago in eight days.

The arrangements for that dinner to Dewey in New York to cost \$100 a plate are proceeding rather slowly. That is to say we have not yet received our invitation.

An effort is to be made to have the post-office at Lake City, S. C., re-established. The office was abolished when the negro postmaster was mobbed and killed a year or two ago.

Congressman Charlie Wheeler, of Paducah, has announced his candidacy for Senator to succeed Debow in 1903. His private secretary, J. D. Watson, who will be Senator in the Mayfield district, will be his leader.

The race in Caldwell county between Hollingsworth, a cousin of Capt. Stone, and Lisanby, a Hardin man, was a square test of strength in the gubernatorial contest and the Stone man won by 198 votes. This would seem to indicate that Caldwell is not a doubtful county.

The funny genius of the Albany (N. Y.) Argus after reading Rudyard Kipling's latest masterly effort in rhyme entitled, "The White Man's Burden," oil'd up the machinery in his think loft and ground out this pretty pat little dab of delicious doggerel: "Cold is the night—'tis 2 a. m.—when baby screams and cries; take up the white man's burden, then, and walk—for exercise."

An indignation meeting was held at Owensboro Saturday over the acquittal of a criminal, and Broncho Franks broke all records by declining to make a speech when called upon. As the State of Kentucky went Republican in 1896 by the votes of ex-convicts restored to citizenship in order to let them vote, the criminals are entitled to good deal of consideration at the hands of Re-publican politicians.

Miss Mamie Sasseen, of Henderson, who is a candidate for superintendent of public instruction, lays claim to the support of the democrats of Kentucky on the grounds that she is the only woman in the state, married or unmarried, who is past thirty years of age! And it is doubtful, she says, if she would be so old but for the constitutional provisions that one must be thirty to hold the office she seeks.—Morganfield Sun.

In his Munfordville speech Gen. Hardin said:

"I stand here to-day to defy the boss. I defy his machine. Let it be worked for all it is worth. I stand for the people, I stand with the people, I stand for the people. The political trust which seems to have been formed, and through which the offices, the gift of the people, are to be parceled out to adherents and favorites, is as bad, if not worse, than the moneyed trust by which they are to be deprived of their right to earn living wages. The one robs them of their votes. The other robs them of their bread."

The following language was used in discussing Senator Goebel's record and his advocacy of the election law:

"It is quite sufficient now to observe with regard to Mr. Goebel that he has not fully escaped at the hands of the people. He is a leader of a movement of repudiation himself. A man less courageous after the action of three great conventions of the people covering the entire State, repudiating in toto all that he has urged—his little private political hobby-horses upon which he and his little satellites were to ride into power. He set them up, and his crowd were as far as the people were concerned, persona non grata. He would appreciate that if his mission was to fasten these bills onto the party platform, it has failed, that his platform is rejected, and his leadership repudiated, and that there now nothing left but reflection and retirement."

If a failure of the railroad district conventions to endorse the election bill is a repudiation of that measure, the Democrats of the State should see and will see that the State Convention does not make the same oversight. The election bill may be a "hobby-horse," but the people are for it and do not endorse the idea that it robs any man of his vote. It guarantees an honest ballot and a fair count, and the only people robbed of their votes are those who have no right to vote.

A public meeting in Owensboro adopted this resolution about Jake Rowe:

"That we recognize in the character and habits of the present commonwealth's attorney a harmful example and fruitful source of lawlessness, and we favor his retirement from office at the earliest possible opportunity."

Rowe was once a bright and talented fellow, but drink has been his ruin.

In Democratic primaries and conventions held Saturday, L. E. Weatherford was nominated for Representative in Graves county, J. W. Hollingsworth in Caldwell, and W. H. Minnins in Todd. S. B. Harrel won the Senatorial contest in Simpson, Todd and Logan, and J. D. Watson won in the Graves-Fulton-Hickman district.

An ice trust is trying to buy the ice plants in twelve of the larger cities and run them as one big corporation.

### Col. Henry Returns.

Lieut. Col. Jouette Henry arrived from Savannah Sunday and is now at home for the first time in several months. He was here on a brief furlough just before he was ordered to Cuba. Col. Henry is looking the very picture of health.

**Deafness Cannot be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies.

Deafness is caused by an inflamed condition of the mucous membranes of the ear. Dr. T. W. Hall's tube gets inflamed. You have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; pine cases cut out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Pays His Compliments to Debow  
in Peppery Style.

Major S. R. Crumbaugh, the Supervising Inspector of Steam Vessels, was asked yesterday if he had seen the Lexington Leader's editorial, reproduced in The Enquirer, in which Collector Sam J. Roberts resents and repudiates the assertion and assumption of Senator Debow, Barker and Franks that General Taylor is the Administration candidate for the nomination for Governor of Kentucky.

"Yes, sir, I have," he replied,

"and I approve of every word of it."

It is simply preposterous and absurd to make such a claim, and in the end it will injure very much the chances of Taylor's nomination instead of helping them, as it was intended such a claim by the claimants should do. I do most emphatically resent and repudiate such an assertion and assumption by Debow and his followers. I do not allow any man or set of men to do anything for me. Collector Sam J. Roberts, John W. Verkes, D. N. Comingore and Leslie Combs, Corr. Agent, are for Stone, and your humble servant is for Pratt if he can get him, and, if not, for Stone for second choice.

"We are all office-holders and devoted and enthusiastic McKinley men, and were such when Debow and Franks were not. I do not believe the Administration has or will have a candidate for the nomination for Governor of Kentucky."

"I am sure that if the Administration had a choice Sam J. Roberts, who is closer to McKinley than any other man in Kentucky, would know that choice, and he says that the Administration has none. There are a great number of office-holders in Kentucky who are not for Taylor. Personally I like Taylor, but I do not think he is the greatest vote getter in Kentucky."

"Nor do I think he is the one to unite the factions. I am in favor of a fair fight and an open field for all candidates, and any attempt to force any man upon the party as the candidate of any individual or faction will endanger party success. I do not belong to the Debow faction nor to the Bradley wing, but am for McKinley as the absolute exclusion of everybody else and everybody else. All three candidates are administration supporters and admirers of the President, but it will not do for a man or set of men to make the attempt to forestall and control public opinion by assertions and assumptions without foundation in fact, and thus try to injure the chances of good men and true for political preferment."—Enquirer.

### "Only the First Step

is Difficult."

The first step in Spring should be to cleanse Nature's house from Winter's accumulations. Hood's Sarsaparilla does this work easily. It is America's Greatest Spring Medicine. It purifies the blood, as millions of people say.

It makes the weak strong, as nervous men and women gladly testify. It cures all blood diseases, as thousands of cured voluntarily write. It is just the medicine for you, as you will gladly say after you have given it a fair trial.

**Bad Blood.**—Although over 70 years of age, an invalid well. I took three bottles of Hood's Sarsaparilla that made me so after spending over \$80 in medical attendance. My trouble was a raw sore on my arm and "Miss Louise" Mason, Court

## Impure Blood?

If your blood is impure then you are weak and languid; your appetite is poor and you are easily fatigued. You cannot sleep well and the morning is a time of languor. You are not up to the work of the day. Your cheeks are pale and your complexion is sallow. You are subject to fits of headache, and or some eruption of the skin. Why not purify your blood?

## Ayer's Sarsaparilla

Will do. Take it a few days. You will soon feel lively in every way. For your blood will be pure, your appetite good, and you will never be strong.

If you are ill, take it a few PINTS. They greatly aid the Sarsaparilla.

They cure constipation, the Price, & the grippe, and by all druggists.

Write the doctor freely all the particulars in your case. You will receive a prompt and friendly reply.

### How Do You Like This?

A certain paper in this city has undertaken to throw out slurs upon the performances given here last week by Prof. Hart, the celebrated hypnotist. In the article it intimates that the whole thing is a fake and that the community is being swindled.

We would like to give only one instance, out of a number, which occurred right here, that goes to show that the power to do the things claimed certainly exists, it matters not under what name it may be called.

A young man had been suffering with an abcess at the root of a jaw-tooth. It had swollen so much and was so painful that the dentist, who was applied to for relief, found that it was impossible to pull it, even with an anesthetic to assist him.

The young man was taken to Prof. Hart who placed him under hypnotic power (or whatever you may call it.)

The dentist then extracted the tooth; the young man did not even flinch; and the relief was instantaneous and perfect.

So much for that. If hypnotic power can relieve under such circumstances we care not what it may be styled, it is a power worth investigating.

Prof. Hart and his assistants will be in other towns and cities of our state for some time. We commend them to our editorial brethren as gentlemen, and ask for them only fair treatment, which Kentuckians always know how to give.—The Frankfort Roundabout.

### Asleep in a Show Window.

Upon the recommendation of manager Thomas Hoffman of the Capital Opera House at Frankfort, and the solicitation of one of our citizens who saw their performances in Shelbyville a few weeks ago, Manager Holland has booked "Hart the Laughing King Co." to appear for a week in his theatre in their remarkable hypnotic performances. This company created a veritable sensation in our capital city last week, where they broke all records for big business. Their performances are said to be entirely different from anything of its kind ever seen here before, all experiments being given with the assistance of local people whose reputation for integrity is above reproach. In the past two weeks the Hart company is said to have hypnotized over four hundred of the leading people of this State; among them congressmen G. G. Gilbert and his daughter of Shelbyville, and Miss Christine Bradley, daughter of Gov. Bradley at Frankfort. Monday night May 22nd, Hart put Douglass, Reese (the young man who was buried alive under five feet of earth in the city park at Chillicothe, Ohio, for 36 hours last April) in a hypnotic sleep from which he will not awake for two days and nights. At the close of the performance he was transferred to a prominent store and placed in the show window where everyone can see him. Here he will remain without food or water, watched by a committee of citizens until Wednesday night.

The entire medical and dental profession of the city were invited to attend the opening performance Monday night. Seats on sale at the postal Telegraph office.

### Capt. Stone in Warren.

Capt. W. J. Stone spent Sunday night in the city, on his way to Bowling Green, where he spoke yesterday. Capt. Stone was very confident of success, claiming that he would enter the convention with at least 400 of the 1,000 votes.

### FINE BERRIES.

#### Some Specimens That Top All Records.

We have been shown some specimens of strawberries this season that eclipse anything we have ever seen in size and quality.

Mrs. Cortez Leavell is entitled to the credit of having produced the largest individual berry, a specimen from the Babach measuring 6 1/4 inches in circumference. In a box sent us were many other berries almost as large.

The handsomest collection as a whole was from Mr. T. W. Long's garden, a dozen berries weighing thirteen ounces.

Another handsome box was from Mrs. R. C. Gary, a few miles out of town. They were very close contestants for the first place.

### Linnietta Park Springs.

At what is known as Junction City—formerly South Danville—on the Louisville & Knoxville and Q & C. Railroads, are a cluster of mineral springs, perhaps the most remarkable in the South, by reason of the variety and strength of the waters. In the early days, when Kentucky was a part of the Old Dominion, the solitary horseman and the weary foot traveler would go miles out of their way to refresh themselves at these sparkling fountains of nature, and in all the years that have come and gone since then, many an invalid has found health and renewed vigor in the elixir vitae which bubbles so gaily up from the great heart of mother earth. A pure, crystal spring is no great wonder in this prolific land of ours; mineral waters of excellent properties are scattered throughout the mountain regions; sulphur and iron wells are frequently found in close proximity to each other, but it is rare, indeed, to find a cluster such as has made Linnietta a sort of Mecca in Kentucky.

Many of the most picturesque views of the far-famed Blue Grass region can be had from the peaks of some of the numerous mountains which surround Linnietta. Blue Knobs, a part of the springs property located just back of the hotel, is supposed to have been formed in ages passed by a volcanic eruption; though perfectly barren in itself, it is encircled by thousands of wild flowers and native forest trees, among whose branches fit hundreds of feathered songsters, affording a sight once seen never to be forgotten. This popular resort will open June 1 for analysis, terms etc. address.

JAS. D. SHELBY, Prop.

### Another Divorce Suit.

Mrs. Sallie Bethel on last Friday filed suit in the Circuit Court for divorce from her husband, Sam'l Bethel. The petition states that they were married in 1888, and lived together until 1890. She alleges that the defendant about the latter date abandoned her and went to Clarksville, where he has since made his home. She asks a legal separation and the custody of their three children.

### Ready for Occupancy.

The new jail at Madisonville is about ready for the reception of prisoners. While the building was being erected the Hopkins county prisoners were confined in the jail here.

## Does the Baby Thrive

If not, something must be wrong with its food. If the mother's milk doesn't nourish it, she needs SCOTT'S EMULSION. It supplies the elements of fat required for the baby. If baby is not nourished by its artificial food, then it requires

### Scott's Emulsion

Half a teaspoonful three or four times a day in its bottle will have the desired effect. It seems to have a magical effect upon babies and children. A fifty-cent bottle will prove the truth of our statements.

### BLACKBERRY WINTER.

#### Temperature Took a Tumble of Fifty Degrees.

The past few nights have been cool enough for fire, the drop in the temperature being fifty degrees. The season is known as "blackberry winter," which never fails to come while blackberry bushes are in bloom. The blackberry bloom is not so large as usual, as many of the bushes were killed by the cold weather of February, but this did not prevent the usual "berry winter" from putting in an appearance.

### Pon Letter.

Pon, Ky., May 19.—The farmers are very busy setting tobacco this week.

Mrs. N. O. King got on a horse last Friday to go to the store, and the horse got to cutting up and threw her off and hurt her very badly, though she is able to sit up some now.

Mr. Gaither Hord, of Hopkins county, was up visiting his father's family last week.

Mr. Lee Smith and wife was visiting in our vicinity last week.

The Rev. James Betty's show came last night. His lecture was a deep thing. Master Tody Hord captured the prize offered to the fastest pie eater.

Mr. O. A. West, Sr., who cut three of his toes off last fall is worse. He has erysipelas in his foot.

Mr. Tom Yancey, who has been very sick, is better at this writing.

SEASON OF 1899.

TO OUR FRIENDS: Another season of seed time is fast approaching, and we wish and prudent farmer will again use the old and favorably known JONES' BRANDS OF BONE AND ANIMAL MATTER FERTILIZERS, that have for many years done their full duty when applied to both Spring and Fall crops. The commercial Fertilizers are the universal, and the experience of many years has proven conclusively that ANIMAL MATTER FERTILIZERS are the most complete plant food known, and the fact of putting ACID PHOSPHATE ROCK in a bag and branding it "DISSOLVED BONE" doesn't make it animal matter. Honest strictly pure Animal Matter Fertilizers cost more than rock goods, because they are worth more, and we ask that you remember this fact. Our goods go out under our guarantee analysis, and this guarantee is good. We offer our goods on their merits, and refer with great satisfaction, to their most excellent reputation in all parts of Ohio, Indiana, and Kentucky, where they are extensively used. We respectfully urge you to give the celebrated Jones Fertilizing Co.'s goods a trial on both Spring and Fall crops, and we know sat-satisfactory results and future orders will certainly wait.

#### BREEDING GAMES.

A Lover of the Fighting Birds  
of the South.

The game fancy carries with it an enthusiasm unknown to any other breed of fowls or any other fancy. While we see the poultry journals covering the field of all other breeds combined, we see a dozen or more devoted exclusively to games, and they are widely circulated, extensively read and enthusiastically supported by both subscribers and advertisers.

Now, why is this the case? Is the inspiration in the bird or in the man? Is it a mercenary motive that incites the patrons of these game journals to such enthusiastic action? We believe it is not.

We believe that the inspiring incentive rests both with the admirer and the admired, the fancier and the fancied, the lover and the loved, the man and the bird. We believe the love, admiration and devotion are inborn and inherent in the human breast, or in many human breasts. It is not quality of the rich, the lordly, the educated, the aristocratic or the regal. Among the devotees will be found men in the ordinary vocations of life, uneducated, not wealthy, not high-born. Whatever the station the sentiment and love are the same. Each lover and admirer will, to the extent of his ability, have the best; hence it is a matter of means or circumstances.

This love for this noble bird has created the demand, and hence the advertisements, the journals and the traffic.

But the love for the sport and the excitement caused by the contests and wagers in the pit give the most enthusiastic impulse and greatest zest to the sport. A man who backs his birds feels a deeper and keener interest than that induced by the mere money staked. Judgment, honor, reputation and ambition are at stake. The mere questions of dollars and cents are small compared with the reputation and judgment of a true cocker. His faith and his judgment in his fowls and their selection are at stake in the issue.

Even in the sale of fowls are judgment and reputation at stake. He who would preserve both must look well to his laurels.

A man who will permit his love for money to influence him to sell inferior or ordinary specimens will find he will be the loser in the end, and those very specimens will be a living disonor and disadvantage to his future prospects. But he who prizes his judgment and reputation above the small item of the price of a fowl will always endeavor to send better birds for the money received than described or offered, and hence his reputation will be improved and his prospects brightened, and his business will build up.

The mating, breeding and rearing of game fowls is a scientific field for the most acute and energetic experiment, research and ambition. This field is alike exhaustible, immeasurable and incapable of monotony. The scientist, the moneyed man, the sportsman and speculator, the aesthethic and utilitarian can all indulge their most sanguine pleasures. The man of letters and the unlettered, the millionaire and the pauper, the gentleman of leisure and the horny-handed son of toil, the professional and the business man can all meet on this grand center of attraction, finding a special and peculiar pleasure best suited to his special needs.

Wonder not, then, that the feeling is widespread, unchangeable and eternal. The journals are the great mediums and the only mediums by which and through which views can be exchanged, ideas set forth, mains reported, sales made and busi-litary rights.

Of the present rulers of European empires and kingdoms one third ascended the throne by direct hered-

ness transacted.

All honor and continued success say we to and for the journals. Long may they spread their printers ink to the breeze and carry the good work to the remotest bounds of our fancy.— J. A. Monroe, in Dixie Game Fowl.

#### GEMS TO BE WORN.

Authoritative and Valuable Opinion on the Subject.

Pearls are most certainly the favorite gems of the moment, and are a profitable investment, for, though they are rising in price daily, they will go very much higher, and mounted, too, says one of the most noted jewelers firms in London. The rage for pearl ropes created a demand, and pearl collars are as eagerly asked for. The price of a necklace of five rows matting in size and color is about \$32,500, or \$6,500 a string, counting diamond at the back of the ornament.

For a pair of black pearls to match perfectly, the price might be as high as \$5,000 for the two single pearls, while one alone would only be \$1,500. The reason of such an astonishing fact is that black pearls are exceedingly difficult to match perfectly as to size and color.

Chains of diamonds are exceedingly smart, and are set in rims of silver, each stone separately. Very high up, indeed, second to pearls, are emeralds, in the estimation of society.

A good large single emerald, suitable for a ring or the center stone of a diamond pendant, would cost \$25,500. A single ruby of the precious pigeon's blood color would cost \$3,500. A sapphire of the same size \$1,750.

Among rings the marquise shape, composed of one stone, is a novelty likely to become very muchish. It should be worn on the index finger. It is now not liked on that one, since its appearance is awkward and affected. The wedding ring has not altered materially in shape for some time. It should be neither very broad nor very narrow to be smart; a medium size is the correct one.

Since pearls are superstitiously held to signify tears, they are by some people deemed unlucky for the betrothal badge, but opals are so frequently asked for that in the opinion of those in authority they are at last lifted out of theough of displeasure into which public opinion once thrust them.

Ladies as well as gentlemen greatly like beast and bird jewelry. There was a very large demand for live tortoises a little time ago in Paris, worn by smart women on their corsages. The tiny creatures carried on their backs a cage of gold set with jewels which flashed as they crept about, chained to their captor's dress.

In England the idea did not take; it was deemed too grisly and grim, but a tortoise brooch set with a mass of diamonds and rubies is very much liked, and a frog quite realistic enough to please anyone is another favorite. In the shooting season pheasant, partridge, hare and grouse brooches and scarfs are in demand.

Bracelets are flexible or they are not

the latest idea, and are set with gems all round, some with rubies, some with diamonds, some with turquoise, some with a variety of stone. A necklace will often be so constructed that it can easily be taken apart and worn two bracelets. All tiaras are so formed.—London Mail.

Some folks are kept in the dark in order to prevent them from bringing things to light.

A lazy liver may be only a tired liver, or a starved liver. A stick is all right for the back of a lazy man. But it would be a savage as well as a stupid thing to beat a very lazy or a starved man, because he lagged behind the others. So in treating the lagging liver it is a great mistake to lash it with drastic drugs.

In ninety-nine cases out of a hundred a torpid or sluggish liver is not a symptom of an ill-nourished body, whose organs are weary with overwork. Let your liver alone. Start with the stomach. There are three main organs of digestion and nutrition. Put them in proper working order, and see how quickly your liver will become active and energetic. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the system, increases the secretion of the blood, making it stand up to the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the deflection of other organs.

The meanest kind of curiosity is that which pretends to be more friendly interest.

## No Lady Would Do Such a Thing.

No lady would take her watch when out of order, to the first woman who displays the "Medical Advice Given" sign. But a wise woman would acknowledge that a man who acknowledged skill entitled him to take in charge the delicate mechanism.

How much more careful should a woman be when she herself is disengaged, not to entrust the delicate and complex mechanism of her being to the first man who displays the "Medical Advice Given" sign. No sign is to be trusted which says, "Medical Advice Given" and stops there. Medical advice can be given only by a physician. An accredited physician will put his name on the sign. The sign reads, "Medical Advice Given by a Man." What woman would not instantly say, "The fact of being a man doesn't entitle him to give medical advice." He must be a physician to do that. But suppose the sign reads: "Medical Advice Given by a Woman." Is not that just as patent that being a woman does not qualify her to give medical advice. The sign reads, "A physician to do that." Medical advice given by an unskilled woman is just as dangerous as if given by an unskilled man.

In inviting sick and ailing woman to consult him by letter without charge, Dr. Pierce points to an experience and practice of over thirty years, devoted specially to diseases of women. In that time Dr. Pierce and his associate staff of medical specialists have successfully treated more than half a million women. All communication is treated as strictly private and sacredly confidential. Letters are promptly answered, and the answers are mailed in perfectly plain envelopes, without any printing upon them. Women will feel no fear in writing to Dr. R. V. Pierce's Hotel and Surgical Institute, Buffalo, N. Y.

**Fashion Facts Worth Knowing.**

Bright-red silk or wool jackets and sweaters owe their popularity to the present craze for gold.

Princess ties are the fashionable neck gear. They are made of silk over a high stock and have short bows and long ends in front.

The newest sleeves fit like a glove from wrist to shoulder.

Plain buttoned, or clasped gloves fitting snugly, are now worn on all occasions.

White wash-gloves will be used again this summer, for street wear and for outdoor sports.—Demorest's Magazine.

The leading article of the June Demorest's about "Puff-Balls" is a remarkably interesting account of the not generally known characteristics of this very common fungus. That it has medical qualities, and that it serves occasionally as an excellent breakfast for the camper who has strayed away from the commissary department, are among the many interesting facts set forth. An excellent collection of photographs for the various puff-balls at home are given. This is but one of several collections of pictures in this number which are of rare interest.

**BIMETALLIC LEAGUE CONVENTION.**

Louisville, Ky., May 31st, June 1st and 2nd, 1899.

The third annual convention of the League of Bimetallic Clubs of the Ohio Valley, will be called to order at Louisville, Kentucky, on May 31st, 1899, and will continue in session until the night of June 2nd, 1899. There will be two or three sessions daily.

The following have positively and unreservedly accepted invitations to address said convention:

Hon. W. J. Bryan, of Nebraska; Hon. George Fred Williams, of Massachusetts;

Hon. John P. Altgeld, of Illinois; Hon. W. J. Stone, Kentucky; Hon. William Goebel, Kentucky; Hon. John J. Lentz, Ohio; Hon. E. B. Finley, Ohio;

Hon. Henry Warrum, Indiana; Hon. F. J. Van Cris, Indiana.

The reports of Governor Altgeld's illness are a mistake, as he has himself written, rejecting his purpose to attend the convention.

It is confidently believed that Hon. W. J. Stone of Missouri, and Hon. Joseph W. Bailey, of Texas, will also be present and address the convention. They have been invited and are endeavoring to so arrange their affairs as to accept.

There will be two banquets in connection with the convention. One will be given on the night of June 21 at Fountain Ferry Park, in honor of W. J. Bryan; and one at the Galt House, on the night of May 31st, to James P. Farnie.

The attendance of ladies is expected and desired. A committee of twenty-five ladies of Louisville has been appointed to receive and entertain visiting ladies.

The people of Louisville, without regard to party, are interesting themselves in the convention, and doing all in their power to give to those attending a good time and warm reception.

James P. Tarvin, of Covington, is President of the League, and Allen W. Clark, of Greensburg, Ind., is Secretary. The object of the League is the advocacy of independent bimetallism at 16 to 1 by the country, and opposition to all the results growing out of the demonetization of silver.

Ay 16 to 1 organization in the States of Ohio, Indiana, Illinois or Kentucky can send delegates to the convention. See official call herewith for full particulars.

## MINERAL WOOL.

MINERAL WOOL is the best non-conductor known. The interior walls of the Gurley's are therefore paved with Mineral Wool, regardless of the greater cost, in preference to the fillers usually used by the other manufacturers, such as charcoal, AIR, etc. The following table shows comparison between Mineral Wool and other materials sometimes used as non-conductors.

## Heat Conducting Power of Materials.

The following table of a series of experiments made with various materials for the purpose of determining their heat conducting power, was given in a paper read by Mr. J. C. Coleman, before the Philadelphia Society of Glasgow.

Mineral Wool ..... 100  
Hair Felt ..... 117  
Cotton ..... 122  
Sheep's Wool ..... 136  
Infusorial Earth ..... 136  
Charcoal ..... 140  
Sawdust ..... 163  
Gas Works Breeze 230  
Wood and Air Space ..... 280

Mr. Coleman arbitrarily adopted 100 as the figures indicating the lowest conductive power, and makes his comparison on that basis. For instance, Charcoal con ducts 40 per cent. more heat than the Mineral Wool. In the experiments conducted by Mr. Coleman, he uses the term "conductivity" of technical words, ice, practically a non-conductor, is used as a basis of comparison. Mineral Wool, the next best non-conductor, shows, for the finer grade, a difference of 8 per cent. This is the grade used in our Refrigerators. Samples of Mineral Wool furnished on application.

## BOB TAYLOR

Scores New Triumphs on the Lecture Platform.

Bob Taylor delivered his lecture "Love, Laughter and song" Friday evening at the Opera House to an audience that filled the house even to the stage and standing room, many being turned away unable to get in at all. The speaker was introduced by Col. W. R. Howell as the greatest of American lecturers and the sentiment was heartily applauded by the audience.

The ex-Governor was at his best and entertained the big crowd for an hour and a half as only Bob Taylor can. He has a fine supply of new jokes and flights of eloquence are everywhere sandwiched in between the laughable stories. It was a thoroughly delighted audience.

## HE LIVED LONG.

Enos Harned Dead at the Age of 88 Years.

Enos Harned died near Laytonville Friday morning at the extreme old age of 88 years. His wife died only two weeks ago. The old man was feeble and disconsolate and never rallied from the death of his wife. He was a brother of Larkin Harned who survives him at the age of 90 years. Many other descendants and kindred are left to mourn the death of one whose life was worthy of emulation.

## A LESSON IN ARITHMETIC.

You can buy a Stove made of poor material, hastily put together by incompetent workmen, for very little money. It will NEVER give satisfaction, and will only last a few years, with careful use.

CHARTER OAK STOVES  
and Range  
are made of the best material, by the most skilled workmen, for a reasonable amount of money. It will NEVER give satisfaction, and will outlast a half dozen of the "cheap" kind. It also effects a saving in fuel.
